

Health, Safety, Security, and Environmental Policy

Brayden Infrastructure Resources Ltd. is committed to operating in a safe, responsible manner respecting the environment, our employees, contractors, and the communities where we operate. At Brayden we embrace a culture where we plan our work, execute the plan, and learn from our successes and failures.

Brayden is committed to:

- Halting a job or task if it is perceived to create imminent risk of harm to personnel, environment or equipment;
- Complying with or exceeding applicable health, safety, security and environmental laws and regulations;
- Communicating and confirming our HSSE responsibilities and performance to our employees, contractors, and other stakeholder groups;
- Ensuring that anyone working with Brayden understands their roles and responsibilities with regard to HSSE;
- Actively managing relationships with our contractors to ensure their understanding of what we expect and their performance against what we require;
- Adhering to relevant standards, good technical practices, and principles of risk management to ensure Brayden's activities are conducted in a safe and responsible manner with low to minimal impact to the environment;
- Creating programs to ensure that everyone working for Brayden is fit and capable for the conditions in which they work;
- Establishing a secure working environment to protect our employees and contractors from risk of injury or property loss and the company's assets from risk of loss or damage;
- Measuring, auditing and reporting our HSSE performance and maintaining an open dialogue with stakeholder groups and with the communities where we operate;
- Undertaking appropriate reviews and evaluations of our operations to measure progress and to monitor effectiveness.

Brian Pollyn

Chief Executive Officer
